The Summary of Benefits and Coverage (SBC) document will help you choose a health plan. The SBC shows you how you and the plan would share the cost for covered health care services. NOTE: Information about the cost of this plan (called the premium) will be provided separately. This is only a summary. For more information about your coverage, or to get a copy of the complete terms of coverage, contact the Benefits team at 609-258-3302. For general definitions of common terms, such as allowed amount, balance billing, coinsurance, copayment, deductible, provider, or other underlined terms see the Glossary. You can view the Glossary at www.princeton.edu/hr/benefits/spd or call 609-258-3302 to request a copy.

Important Questions	Answers	Why This Matters:
What is the overall deductible?	For each Calendar Year In-network: Individual $200 / Family $400. Out-of-network: Individual $750 / Family $1,500. Does not apply to office visits, preventive care, and emergency care in-network.	You must pay all the costs up to the deductible amount before this plan begins to pay for covered services you use. The deductible starts over every January 1st. See the chart starting on page 2 for how much you pay for covered services after you meet the deductible.
Are there services covered before you meet your deductible?	Primary care physician visits Specialist visits Urgent Care Center visits Chiropractic visits	No deductible are required for these services
Are there other deductibles for specific services?	**No.**	You don't have to meet deductibles for specific services, but see the chart starting on page 2 for other costs for services this plan covers.
What is the out-of-pocket limit for this plan?	The out-of-pocket limit for the medical coverage is salary based. Review the SPD for details. For the Prescription Plan the limit is Individual $3,500/Family $7,000.	The out-of-pocket limit is the most you could pay during a coverage period (usually one year) for your share of the cost of covered services. This limit helps you plan for health care expenses.
What is not included in the out-of-pocket limit?	Premiums, balance-billed charges, penalties for prescriptions and failure to obtain pre-authorization for services and health care this plan doesn't cover.	Even though you pay these expenses, they don't count toward the out-of-pocket limit.
Will you pay less if you use a network provider?	Yes. For a list of in-network providers, see www.welcometouhc.com/PrincetonUniversity. Certain specialties have Premium Tier 1 in-network providers, who are listed on the website.	If you use an in-network provider, this plan will pay some or all of the costs of covered services. Be aware, your in-network doctor or hospital may use an out-of-network provider for some services. Plans use the term in-network or participating for providers in their network. See the chart starting on page 2 for how this plan pays different kinds of providers.
Do you need a referral to see a specialist?	No.	You can see the specialist you choose without permission from this plan.

All **copayment** and **coinsurance** costs shown in this chart are after your **deductible** has been met, if a **deductible** applies.

Does this plan provide Minimum Essential Coverage? Yes

The Affordable Care Act requires most people to have health care coverage that qualifies as "minimum essential coverage". This plan does provide minimum essential coverage. If you don't have Minimum Essential Coverage for a month, you'll have to make a payment when you file your tax return unless you qualify for an exemption from the requirement that you have health coverage for that month.

Does this plan meet the Minimum Value Standards? Yes

The Affordable Care Act establishes a minimum value standard of benefits of a health plan. The minimum value standard is 60% (acturial value). This health coverage does meet the minimum value standard for the benefits it provides. If your plan doesn't meet the Minimum Value Standards, you may be eligible for a premium tax credit to help you pay for a plan through the Marketplace.

Focus on the cost sharing amounts (deductibles, copayments and coinsurance) and excluded services under the plan.
